

CRM & DATA MANAGEMENT

Virtual Assistant | Data Cleanup & CRM Organization

Prepared by Evangeline Chinanu Amadi | Evy Data Entry Services

The Problem

A year of contact information collected from different sources — business cards, emails, conference introductions — had built up into a messy, inconsistent list. Names were capitalized differently, phone numbers followed no single format, and at least two contacts had been entered twice under slightly different formatting. The sales team couldn't rely on it.

What I Did

I cleaned, standardized, and organized the contact list into a proper CRM using HubSpot:

- Standardized formatting across every entry — consistent name capitalization, lowercase emails, and a uniform phone number format
- Identified and merged duplicate entries so each contact existed once, not twice under different formatting
- Flagged incomplete records honestly rather than inventing missing details — where a phone number, company, or location wasn't provided, it was left blank and noted rather than guessed
- Assigned a clear status to every contact (New Lead, In Progress, or Incomplete — Info Needed) so the sales team could immediately see who needed follow-up
- Entered every contact into HubSpot with lifecycle stage and lead status fields set consistently, ready for the sales team to act on

The Result

A clean, de-duplicated CRM the sales team can actually trust and use — every contact has a clear status, missing information is flagged rather than hidden, and nothing is entered twice.

Skills Demonstrated

- Data cleaning and standardization
- Duplicate detection and merging
- CRM setup and management (HubSpot)
- Judgment calls on incomplete data without fabricating information

Cleaned Contact Summary

Full Name	Company	Location	Status	Notes
John Smith	Bright Ideas Limited	Lagos	New Lead	Duplicate entry merged into one record
Sarah O. Johnson	Greenfield Academy	Lagos	New Lead	Duplicate entry merged into one record
Michael Adeyemi	TechFlow Solutions	Abuja	New Lead	—
Grace N.	—	—	Incomplete — Info Needed	Met at conference; no contact details captured
Peter Okoro	Okoro & Sons	Port Harcourt	In Progress	No phone number provided
Blessing Eze	Eze Consulting	Enugu	New Lead	—
Tunde Bakare	—	—	New Lead	No company or location given

David Okafor	Okafor Tech	Abuja	New Lead	Flagged as duplicate in source sheet; confirmed single entry
--------------	-------------	-------	----------	--
