

Zoho Books Bookkeeping Case Study

Food Trading Business — Practice Portfolio Project

Software: Zoho Books **Reporting period:** August 2026 **Currency:** Nigerian Naira (₦)

Project Overview

This fictional practice project demonstrates a complete bookkeeping workflow for a small food-trading business selling Fufu Flour, Pounded Flour and Palm Oil. The work was completed in Zoho Books to demonstrate practical bookkeeping and accounting-support skills.

Objectives

- Set up customers, vendor and inventory items.
- Create and manage sales invoices.
- Record customer payments, including partial payments.
- Record supplier purchase bills and outstanding payables.
- Record an operating expense.
- Generate and review Profit & Loss and Balance Sheet reports.

Transactions Processed

Area	Work completed	Result
Sales	Fufu Flour, Pounded Flour and Palm Oil invoices	₦625,000 sales
Customer payments	Partial and full payments recorded	A/R balance ₦150,000
Purchases	Three supplier bills recorded	COGS ₦425,000
Supplier balance	Purchase bills left open/unpaid	A/P ₦425,000
Reporting	Profit & Loss and Balance Sheet generated	Reports reviewed

Financial Results

Metric	Amount
Sales	₦625,000
Cost of Goods Sold	₦425,000
Gross Profit	₦200,000
Operating Expenses	₦0*
Net Profit	₦200,000
Accounts Receivable	₦150,000
Accounts Payable	₦425,000
Total Assets	₦625,000

*The ■2,000 transportation entry was identified during quality review as requiring account-classification correction. It was therefore not included as an operating expense in the final P&L; summary.

Balance Sheet Check

Assets ■625,000 = Liabilities ■425,000 + Equity ■200,000.

The accounting equation balances.

Skills Demonstrated

Zoho Books setup and navigation; customer and vendor management; item setup; sales invoicing; payment recording; purchase bills; Accounts Receivable; Accounts Payable; expense entry; Profit & Loss reporting; Balance Sheet reporting; and basic bookkeeping quality control.

Portfolio Note

This is a fictional practice case study created to demonstrate bookkeeping capability. No real client financial information is used. Screenshots shared in a portfolio should be cropped or redacted to remove private contact details.
